on DD / MM / YEAR or for a period of (length) .

This assessment was conducted in relation of the following substances and quantities at the following sites (if applicable):

SUBSTANCES	CLASSIFICATION	USE/STORAGE	QUANTITIES	SITE DESCRIPTION

WSNZ\_2374-190\_DEC17

# Application for authorisation as compliance certifier

## Annex D: Experience with equipment, procedures, systems, handling, testing, inspecting, design

I confirm that compliance was assessed against the following regulations/safe work instrument/standards:

(name the regulations/safe work instrument/standards against which the applicant was assessed)

I confirm that the applicant knows and is able to describe and demonstrate:

- the use of testing equipment or procedures required for the issue of compliance certificates
- the use of operating equipment and systems necessary to meet requirements for which a compliance certificate is to be issued, or for which a compliance certificate is required
- handling hazardous substances, or testing or inspecting plant or equipment or the designs for these.

I am confident that the applicant can satisfactorily undertake compliance certification on matters relevant to the type of assessment conducted above and is qualified.

Assessor's signature:
